Introduction to Teasdale

The heartbeat for healthcare equipment for over 40 years

Teasdale Healthcare Equipment have been providing specialist healthcare equipment solutions to both the NHS, private sector and international healthcare organisations for nearly half a century. Working alongside prominent healthcare professionals, Teasdale have designed and developed a range of products

specific to the needs of patients and hospital professionals in the ever-changing healthcare environment.

All Teasdale products are designed and manufactured in the UK. We pride ourselves on quality and create every one of our products under our company ethos of “care in the detail”. We ensure that every single element of the manufacture and design is created with the very best quality materials, which are sourced exclusively from UK suppliers. Teasdale products are developed with quality and longevity in mind allowing hospitals to save money in the long term.

Teasdale products work to support healthcare professionals in their work to assist patient positioning and lessening the patient trauma during surgery. A variety of our products have been developed through bespoke requests by surgeons and healthcare professionals via our research and development team that have developed into stock products within our catalogue. At Teasdale we are always willing to listen to the requirements of healthcare professionals, working together to provide solutions to specific needs.

Market leaders in the design and development of pressure care solutions Teasdale Healthcare Equipment have led the way in ensuring patient care and recovery is at the forefront of our product development. Leading the way in pressure care solutions, Teasdale have developed a wide range of pressure relieving mattresses, positioning aids and gels.

The family owned, UK based, independent health care equipment manufacturer is still run by third generation Emma Teasdale who has been involved with the business from an early age working alongside her father Barry Teasdale since the early 80's. Emma has worked in every part of the business from the ground up. Owner and Managing Director Emma is still very hands on working alongside her team of staff based out their Stockport offices.

Teasdale Healthcare Equipment are Investors in UK Manufacture, are BHTA, BSI and CE compliant and are environmentally responsible, committed to reducing our carbon footprint.

Operating Theatre Mattresses

Operating Theatre Mattresses are manufactured from high resilience polyurethane interiors with an Anti Static Neoprene covering.

All materials used in manufacture are latex free and comply with all British and European standards.

- Manufactured to customer specification where necessary.
- Made to fit all table models.
- Can be made to any size and thickness.
- All mattresses are x-ray translucent.
- Visits from our Technical Sales Team are available for measuring your mattress.
- Theatre Audits are available on request.

WE CAN ALSO SUPPLY:

- Pressure relieving 'memory foam' versions of our mattresses for medium to high risk patients, when ordering, please add PR after the code.
- Loose vapour permeable Dartex covers with welded seams - waterproof, easy to clean and multi-stretch - when ordering, please add DC after the code.

WE MANUFACTURE MODELS:

- Eschmann, Maquet, QA and others on request.

Mentor Dynamic Operating Table Mattress & Pump

Patients are at particular risk from pressure ulcers during lengthy procedures and also during any surgery in which the patient's circulation is compromised, such as:

- Vascular.
- Cardiac.
- CPlastic.
- All mattresses are x-ray translucent.
- Micro Surgery.

Using technology developed to prevent this problem in long term 'bed bound' patients, the Mentor Dynamic Operating Mattress uses a system of 'active' cells which deflate and inflate in sequence designed to provide the optimum preservation of circulation during surgery.

DYNAMIC OPERATING TABLE AIR MATTRESS AND PUMP TT/163

- Upper weight limit 41 stone 260kg.
- Minimum weight limit 3 stone 19kg.
- Welded seams.
- Range sizes to fit all beds.
- Category 3/4 Pressure Ulcers.
- Unique Static/Flotation Mode for use during micro surgery where absolutely no movement is required.
- Unique 'double skinned' DARTEX cover.
- 3/4 size also available.

Operating Theatre Accessories

All Teasdale Metal Operating Table Accessories are manufactured 'in house' using high grade, non magnetic Stainless Steel with a greatly improved resistance to corrosion over other Stainless Steels and are designed to fit all table models.

- High quality Stainless Steel
- Designed to fit all table models
- No sharp flaking as with plating
- Replacement pads can be supplied separately
- Can be 'custom' made to meet your requirements
- Manufactured to all current required British and European standards

OPERATING TABLE SUPPORTS

All Teasdale Anti Static supports/accessories are manufactured from Polyurethane interiors with an Anti Static Neoprene covering. All materials used are Latex free and comply with all British and European standards.

- Manufactured to customer specification where necessary
- Manufactured to all current required British and European standards
- All materials are Latex free
- BSI registered firm to ISO 9001:2015, ISO 13485 and EMS 14001:2000
- CE marked

Metal Work Furniture

All Surgeon Stools are manufactured from high grade Stainless Steel with a height adjustable spun Stainless Steel seat.

Available with Anti Static rubber feet or Anti Static twin wheel castors, backrest (optional).

Each stool is supplied complete with foot rest bar, Anti Static padded seat and backrest pads (where applicable). Each seat pad is made from Latex free materials.

A high density Polyurethane foam interior with an Anti Static Neoprene rubber outer. An elasticated stretch skirt ensures a safe secure fit. Replacement seat and backrest pads are available separately.

- All cushions and pads are Latex free and fire resistant
- All stools are height adjustable
- High quality Stainless Steel
- Feet and twin wheel Castors are Anti Static
- Replacement seat and backrest pads are available separately
- Manufactured to all current required British & European standards

Trolley Mattresses & Side Rail Covers

Trolley mattresses are manufactured from Polyurethane interiors with an Anti Static Neoprene covering or a wipe clean vapour permeable multi stretch Polyurethane fabric.

- Manufactured to customer specification where necessary
- Mattresses made to fit all types/makes of Trolley
- All materials are Latex free
- All mattresses are X-Ray translucent
- Manufactured to all current required British and European standards
- BSI registered firm to ISO 9001:2015, ISO 13485 and EMS 14001:2000
- CE marked

Tourniquets & Connectors

Teasdale Anti Static Pneumatic Tourniquet Cuffs are manufactured:

Outer: Anti Static Neoprene coated onto a high tenacity nylon weave.

Interior: Radio frequency welded Polyurethane.

All Cuffs are supplied with CPC connectors and a crush resistant inlet tube.

- Manufactured to customer specification where necessary
- Manufactured to all current required British and European standards
- All materials are Latex free
- High performance
- BSI registered firm to ISO 9001:2015, ISO 13485 and EMS 14001:2000
- CE marked

CPC connectors are made from a durable thermoplastic with good resistance to chemical attack.

- Ideal for Pneumatic applications.
- C0/100 has an automatic latching system that provides quick and easy "one hand" connection and disconnection.
- A distinct click assures the connectors are locked.
- The cuff side connector can be supplied with a non return valve (keeping the cuff inflated while disconnected from the pump).

ANTI STATIC TOURNIQUET CUFFS

- SS/012** SINGLE CHAMBER 12" (305mm) X 2" (51mm)
- SS/018** SINGLE CHAMBER 18" (457mm) X 4" (102mm)
